Pictured to the right is Naples City Dock.

The Naples City Dock is located on the Naples Bay end of 12th Avenue South, about three and a half miles north of the Gordon Pass to the Gulf of Mexico.

Originally founded in 1920, the dock has gone through many changes and rebuilds over the years, most recently reopening in 2018.

April 22, 2024

Honorable Mayor and City Council
735 Eighth Street South
Naples, FL 34102

Mayor Heitmann and Members of the City Council:

In accordance with Chapter 2, Section 691 of the Code of Ordinances, presented is the 2025-2029 Five-Year Capital Improvement Program. The five-year total is \$252.8 million for all funds, with the first year totaling \$53.07 million.

This Capital Improvement Program (CIP) presents the proposed plan for major public improvements scheduled over the next five fiscal years. The CIP generally includes items with an expected life greater than three years and an expected cost greater than \$10,000.

The document is scheduled for review during Council Workshop on May 13, 2024. Department Directors will present their proposals to the Council for discussion and consideration.

The CIP is a planning instrument that identifies and coordinates the financing and timing of the City's capital improvements. The first year of this five-year program will be considered for inclusion in the annual budget to be adopted in September 2024 for FY2024-25.

DEVELOPMENT OF THE CAPITAL IMPROVEMENT PROGRAM

The development of this CIP followed the same method as prior years.

At year-end, unencumbered appropriations lapse, with funds returning to the fund balance. Therefore, each current year project (that is, each project appropriated in the 2023-24 budget) is reviewed to determine if it will be under contract and encumbered (committed) by 9/30/2024. If the project is not expected to be committed by year end, the project funding lapses; therefore, it would need to be resubmitted for FY2024-25 and a new Capital Project Form prepared.

For each new project requiring funding for the 2024-25 fiscal year, the responsible department prepared a Capital Project Form with an estimate of the funding needed, a justification of the project, and the identification of any related operating costs.

Ethics above all else... Service to others before self... Quality in all that we do.

*Letter of Transmittal
Fiscal Years 2025-2029 Capital Improvement Program*

Capital project forms were not required for projects requiring funding after FY 2024-25, but within the five-year time frame. However, the project costs are included on the consolidated spreadsheet.

The method used to develop the cost estimates in the CIP varies based on the project. Some projects are considered “levels of effort”, where the dollar amount is generally stable from year to year, but the projects may vary. For example, the “Infrastructure Repairs – Water Plant” project budgeted at \$100,000, Water/Sewer department will spend those allocated funds based on priorities. Other projects have costs based on engineer estimates, while others, such as the Police radios, have prices based on the current state contract. Some prices are based on recent acquisitions by other cities, or estimates provided by a manufacturer. For construction projects, the cost is typically an estimate only. More accurate estimates are generally provided after the design phase is initiated.

The Capital Improvement Program uses a 100-point rating system for FY 2024-25 projects, using the following criteria:

	Weight
Character/Culture	10%
Environmental Sensitivity (Water & Water Quality)	20%
Quality of Life	10%
Economic Health	10%
Governance	10%
Infrastructure	20%
Public Safety	20%

The rating system demonstrates that projects meet the City's vision, goals and objectives, and shows compliance with the comprehensive plan.

The city has many written plans that provide guidance for the development of this document.

- Parks Master Plan – 2019
- Unsewered Master Plan - 2006
- Sewer Master Plan (a hydraulic analysis of all lift stations) - 2018
- Stormwater Master Plan - 2018
- Pedestrian and Bicycle Master Plan (under review) – 2013
- Naples Community Redevelopment Agency Redevelopment Plan – revised 2021

SOURCES OF FUNDING

The following funds provide financial resources to fund the CIP, from earned revenue, donations, grants, retained earnings, or debt. Only the Public Service Tax fund has no restrictions; the rest of the funding sources are restricted to projects within the intent of the revenue source.

- Public Service Tax Fund
- One Cent Sales Tax Fund
- Water & Sewer Fund
- Community Redevelopment Agency
- Streets & Traffic Fund
- Solid Waste Fund
- Stormwater Fund
- Dock Fund
- Tennis Fund
- Beach Fund

Ethics above all else... Service to others before self... Quality in all that we do.

*Letter of Transmittal
Fiscal Years 2025-2029 Capital Improvement Program*

- Equipment Services Fund
- Technology Services Fund
- Building Fund

Four funds may need to use debt financing in FY 2023-24 and/or during the five-year forecast period. The City's projects for the Community Redevelopment Agency (CRA) Fund, Beach Fund, Stormwater Fund should be considered in totality for FY 2024-25. The remaining Water/Sewer Fund financing is specifically for sewer line extensions and septic removal which is expected to include special assessments. The design for these water sewer line extension projects began in FY 2020-21.

- **CRA:** \$15 million for the parking garage project increased from \$12 million projected for 2024. This is necessary to maintain sufficient funding for other projects outlined in this CIP document and given the \$4.9 million land acquisition completed in FY2024.
- **Beach Fund:** Includes \$11 million for the reconstruction of the Naples Pier. The total project cost is expected to exceed \$26 million (including design).
- **Stormwater Fund:** This CIP does not include any aspect of the Stormwater Outfall project or inevitable debt of \$15-\$50 million based on final decision on the \$25 million State appropriations and \$10 million in TDC Grant application and providing the project moves forward.
- **Water Sewer Fund:** Before the end of the five-year forecast period (FY2025-26), the Water/Sewer Fund is expected to issue debt of \$18.5 million related to certain sewer line extension projects, similar to the assessment-back debt for Bembury and Gulf Acres/Rosemary Heights assessment projects. This \$18.5 million is in addition to the \$16.5 million in State/Federal Grants related to the same. The total project cost is estimated at \$35 million. This project is for extending sewer lines to homeowners outside the city limits but within the city's water service area. The city expects \$25 million in related water line improvements in conjunction with this sewer line extension. The present projection is to pay the first \$5.0 million from Water/Sewer Fund reserves and issue debt for the remaining \$20 million for the project within the forecast period (FY2025-26).

To assist in ensuring fiscal sustainability, this report includes projections of available funds, including preliminary revenue and expenditure estimates, for the next five years. In enterprise funds/proprietary funds, the term "Working Capital" is used to represent available funds/retained earnings. Working Capital is the term used in the City's adopted fund balance policy, and represents current assets minus current liabilities, as defined in the comprehensive annual financial report. For other funds, the term "Fund Balance" is used.

Included in this document are capital projects funded by grants if the funding source is either confirmed or considered to be likely. For those items where the project is dependent upon grant receipt, it is so noted. If the grant is not received, the project will not be undertaken.

Homeowners' associations will occasionally contact the city for special assessments related to canal dredging or undergrounding of utilities. These projects are **not** included in the CIP. There is no assessment project in FY24/25 currently going through the processes. The budget would be amended if/when the final assessment resolution passes.

Ethics above all else... Service to others before self... Quality in all that we do.

*Letter of Transmittal
Fiscal Years 2025-2029 Capital Improvement Program*

BENEFITS OF THE CAPITAL IMPROVEMENT PROGRAM

Capital improvement programming links short-term and long-range general plans with growth, public and private development, and the annual budgetary process. In this way, the CIP attempts to achieve the goals and objectives of City's residents, citizen boards and commissions, and City Council.

The CIP carries the following primary benefits:

- Focuses attention on Citywide priorities and citizen expectations.
- Fosters inter-departmental coordination of City infrastructure investments.
- Provides a concrete implementation framework for the Comprehensive Plan and Vision Plan.
- Promotes accountability for the long-term planning and investment of public funds.

MAJOR PROJECTS

The primary focus areas of this five-year CIP continue to follow the goals of the City's Comprehensive and Vision Plans with the first year at \$53.07 million with some dominant projects outlined below:

- City Vehicle repair & replacements total \$3.35 million. This includes \$1.12 million for the replacement of 3 large refuse trucks in the Solid Waste Fund.
- CRA includes \$3.3 million 1st Ave S, 12th St. S and 10th St. N., street improvements, \$4.1 million for Affordable Housing projects, \$3.0 million for Naples Design District improvements, and \$2.0 million for Land Acquisition.
- One Cent Sales Tax fund includes \$8.0 million for the Beach Outfall project.
- Both the Streets & Stormwater Funds include \$3.0 million and \$1.6 million, respectively, for South Golf Drive Improvements. Note: \$1.98 million is designated to be reimbursed by FDOT.
- Within the Public Service Tax Fund there is \$1.2 million included for the design of a new Fire Station #2 and \$750 thousand for continued Seawall replacement (this project will continue into FY25/26).
- Equipment Services, an internal service fund, includes \$1.5 million for the complete replacement of the Fuel Island which provides fuel to all city vehicles.
- The Water/Sewer Fund total of \$12.1 million includes \$4.5 million for water transmission mains and \$1.5 million for sewer mains among other infrastructure repairs & maintenance.

Current year committed contracts not completed by year end, due to construction schedule timing or otherwise, will be carried over from the current fiscal year into next fiscal year. The value of the outstanding commitment and its corresponding appropriation will increase the amount spent on CIP in FY2024-25 above the \$53.07 million proposed in this document.

ABOUT THIS DOCUMENT

Immediately following this letter of transmittal is a complete list of planned projects, sorted by fund, for five years. That summary provides the best overview of the projects planned.

Ethics above all else... Service to others before self... Quality in all that we do.

*Letter of Transmittal
Fiscal Years 2025-2029 Capital Improvement Program*

The remainder of this document is separated by fund or fund type. Behind each tab is a narrative (if applicable) and a spreadsheet listing the projects in that fund and noting the funding availability. Following that list is a detailed project sheet for each project proposed for the first year of the CIP.

After publication and presentation to City Council in May, the City of Naples Capital Improvement Program becomes a final document. It is neither adopted nor amended. As a plan, it is designed to be a set of recommendations for the future. Adoption of the FY 2024-25 budget will include the City's Capital Improvement Program for that fiscal year. Inclusion in this CIP does not guarantee that a project will have funding either now or in the future.

CONCLUSION

Implementation of the CIP is contingent upon the availability of funding sources and adoption of the annual budget in September.

During the City Council Workshops in May, the Five-Year Capital Improvement Program will be reviewed. At that time, capital priorities can be further established to assist in the preparation of the FY 2024-25 budget. If supplemental information is required before that meeting, please do not hesitate to contact me.

Thank you for your guidance in this important process.

Respectfully submitted,

Jay Boodheshwar
City Manager

IMPROVEMENTS PROGRAM
PUBLIC SERVICE TAX / CAPITAL IMPROVEMENT FUND

The Public Service Tax/Capital Improvement Fund is one of the largest sources of capital financing for the City of Naples. There are four areas typically funded by the Public Service Tax Fund; Administrative Departments, Police Department, Fire-Rescue Department and Community Services Department.

Florida Statute sections 166 and 202 authorize municipalities to collect Public Service Taxes. City Code Section 34 Article IV governs the collection and appropriation of Naples' public service tax receipts. City Code states that public service tax receipts shall first be appropriated for any debt service on outstanding obligations backed by these receipts. After that, funds are to be transferred to the capital improvement fund of the City for the uses and purposes set forth and contained in the budget for the current fiscal year. This fund represents the latter purpose.

Additional Revenue Sources

As a revenue source, Impact Fees are tracked in separate funds, which are not budgeted until the funds are needed. In accordance with state law Impact Fees may only be used to provide increased capacity for the fire, police, and parks and recreation operations to accommodate any increased demand new development will have on existing operations. For FY 2024-25, the use of impact fees is not proposed, but are recommended to be reserved for expanded capacity projects in the future.

The April 2024 balances of the Impact Fee Funds are as follows:

Fire (Fund 312)	\$ 991,791
Police (Fund 311)	\$ 341,203
Recreation (Fund 314)	\$ 586,097

There are several other unbudgeted funds which can be used for capital improvements specific to each funds authorized purpose. The current balances are:

Public Art Fund (Fund 140)	\$ 1,897,231
Parking Trust Fund (Fund 185)	\$ 668,532
Land Trust Fund (Fund 320)	\$ 9,209
41-10 Public Open Space Fund (Fund 181)	\$ 1,383,774

Summary

The 2025-29 Capital Improvement Program of the Public Service Tax Fund is outlined on the following pages. Projects tentatively planned for FY 2024-25 total \$5.0 million and are displayed with data sheets that provide details of the project, the justification for the project, and related information. Projects for Fiscal Years 2025-26 and beyond do not include capital project sheets in this document.

2024-2025 CAPITAL REQUEST

PROJECT NAME: Tasers (80), BWC (80), & Accessories

DEPARTMENT: 11 Police

FUND: 340 Capital Project Fund

PROJECT NUMBER: 25H12

CIP SCORE: 49

DEPT RANK: 3

PROJECT TYPE: New

VISION PLAN: Public Safety

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Implementation of a Body Worn Camera (BWC) program with the intent to enhance officer/citizen accountability, reduce rate of complaints, aide in gathering evidence for criminal investigations, utilization of video as a training resource/tool and overall increase in transparency. This bundled price includes 80 body worn cameras and 80 advanced Taser 10's and Axon cloud storage. These products work collectively: if a taser is deployed, body cameras and corresponding Axon In-Car Cameras would simultaneously activate and record the incident and provide multiple camera views. In addition, the Axon software package links automatically to evidence.com for uploading of video that can be directly accessed by the State Attorney's Office. This 5-year package includes redaction software, replacement taser cartridges, replacement for damaged or outdated products.

2024-2025 CAPITAL REQUEST

PROJECT NAME: Marked Vehicle Replacement (1 with K-9 Upfit)

DEPARTMENT: 11 Police **FUND:** 340 Capital Project Fund

PROJECT NUMBER: 25H01 **CIP SCORE:** 90 **DEPT RANK:** 5

PROJECT TYPE: Replacement **VISION PLAN:** Public Safety

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

This request is to replace a 2018 Ford Expedition, vehicle #8860, which has 47,768 miles and has a year-to-date maintenance cost of \$24,891. As of 2/21/2024, Equipment Services has reported that this vehicle has a score of 12.4, based on the 15-point criteria for replacement. It is expected that by October 2024, the vehicle points will meet or exceed the 15-point criteria. Based on the aggregate of the mileage repair costs, vehicle condition, and anticipated increase in repair costs going forward, the collective decision is that this vehicle should be replaced. Based on anticipated needs, the replacement vehicle that is ordered will be specifically outfitted for use by an officer assigned a canine.

DEPARTMENT: 11 Police **FUND:** 340 Capital Project Fund

PROJECT NUMBER: 25H03 **CIP SCORE:** 90 **DEPT RANK:** 6

PROJECT TYPE: Replacement **VISION PLAN:** Public Safety

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

This request is to replace a 2017 Ford Explorer, vehicle #7796, which has 75,748 miles and has a year-to-date maintenance cost of \$14,495. As of 2/21/2024, Equipment Services has reported that this vehicle has a score of 14.0, based on the 15-point criteria for replacement. It is expected that by October 2024, the vehicle points will meet or exceed the 15-point criteria. Also to replace a 2019 Ford Explorer, vehicle #9475, which has 73,335 miles and has a year-to-date maintenance cost of \$5,989. As of 2/21/2024, Equipment Services has reported that this vehicle has a score of 10.6. Based on the aggregate of the mileage repair costs, vehicle condition, and anticipated increase in repair costs going forward, the collective decision is that these vehicles should be replaced.

PROJECT NAME: Unmarked Police Vehicle New (3)

DEPARTMENT: 11 Police

FUND: 340 Capital Project Fund

PROJECT NUMBER: 25H08

CIP SCORE: 90

DEPT RANK: 7

PROJECT TYPE: New

VISION PLAN: Public Safety

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

During fiscal year 24-25, the police department is reinstating the Special Investigative Division (SID), which will be staffed by three detectives that each require an unmarked vehicle to complete their intended missions. In addition, Patrol Operations and Administrative personnel utilize unmarked vehicles for specialized patrols and to attend training classes and perform other administrative functions on a daily basis. Therefore, it is necessary to add three additional unmarked vehicles to the fleet to meet our needs.

PROJECT NAME: Axon In-Car Camera (31)

DEPARTMENT: 11 Police

FUND: 340 Capital Project Fund

PROJECT NUMBER: 25H13

CIP SCORE: 90

DEPT RANK: 8

PROJECT TYPE: Replacement

VISION PLAN: Public Safety

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Replace current patrol vehicle camera system with Axon Fleet 3 In-car camera system. The system includes two cameras per vehicle, unlimited cloud storage, installation and a five-year warranty, including equipment replacement at 2.5 and 5 years.

The system works in conjunction with Axon's BWC and Taser10 products by activating simultaneously with any other unit. In addition, it streamlines evidence submission and transmission by utilizing the cloud (SAO can gather/receive evidence straight from Axon's evidence.com).

PROJECT NAME: Mobile Data Terminal (Laptops) Replacements

DEPARTMENT: 11 Police **FUND:** 340 Capital Project Fund

PROJECT NUMBER: 25H09 **CIP SCORE:** 90 **DEPT RANK:** 12

PROJECT TYPE: Replacement **VISION PLAN:** Public Safety

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Replacement of Patrol vehicle computers with individually assigned laptops. Replacing current in-car computer setup from a fixed computer device (per vehicle) to a removable laptop solution (per officer). The laptops will be phased in over a two-year budget circle. The first year will include laptop docking stations in all Patrol vehicles (25), with necessary mounting components and the issuance of the first batch of 27 individually assigned laptops. Docking stations for 25 vehicles \$30,431, laptops for 27 officers \$125,812. The transition to laptop computers allows for individual officer profiles to be pre-installed on each computer eliminating the need for constant reprogramming to maintain functionality and further allows for officers to remove the computers from the vehicles to complete reports and obtain critical data while away from their vehicles.

1

PROJECT TYPE: New

VISION PLAN: Public Safety

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

The Assistant Fire Marshal is currently utilizing a borrowed vehicle from the Building Department which is typically utilized by the Building Staff. The Assistant Fire Marshal is required to attend meetings, meet with contractors, and inspect construction sites on a daily basis. This vehicle will be used to fulfill the daily duties and allow the member to be on call for emergencies during non-working hours as part of a City IMT or as a member of incident command.

2024-2025 CAPITAL REQUEST

PROJECT NAME: Individual SCBA Masks & Regulators

DEPARTMENT: 08 Fire

FUND: 340 Capital Project Fund

PROJECT NUMBER:

25E06

CIP SCORE:

DEPT RANK:

2

PROJECT TYPE:

VISION PLAN: High Performing Government

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

This CIP request is to purchase individual SCBA regulators for operations personnel and also utilize this opportunity to upgrade our current SCBA masks to the newest model. The main goal of equipping each firefighter with their own regulator is for health and safety reasons. Currently we have one regulator per SCBA air pack that stays with the pack. As users switch, the regulator does not, and unless the regulator is cleaned and decontaminated between each user, there is a high potential to spread and expose users to germs and bacteria that we inhale and exhale. Firefighters having individual regulators assigned to them would significantly reduce or eliminate this cross contamination between users. With the recent events of Covid-19, this risk of exposure to personnel utilizing the same regulators has become even more significant. As the risk of Covid-19 appears to be present for the foreseeable future, other illnesses will also remain a potential threat to firefighters' health and safety. Considering this CIP for individual regulators, it would be careless to not consider other ways to benefit the department in the long term at the same time. Scott has recently redesigned a new style SCBA mask and a new updated regulator that they plan on moving forward with in the future for their product line. This new style regulator is only compatible with the new style mask, which makes this an excellent way to implement this change with the new setup. The cost for this CIP would be an initial startup cost and then future purchases would be covered under the current SCBA budget.

PROJECT NAME: Design New Fire Station 2

DEPARTMENT: 08 Fire

FUND: 340 Capital Project Fund

PROJECT NUMBER: 25E22

CIP SCORE: 67

DEPT RANK: 3

PROJECT TYPE: New

VISION PLAN: Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

The original station was constructed in 1975 which included a bunk room, living quarters and apparatus bays. In 1985 the station was expanded to include a training facility where the Fire Academy was held. In the late 90's the Fire Academy changed locations and the area was turned into individual bunk rooms. Since the expansion in 1985 the size of the apparatus bays and doors have remained constant while designs in fire apparatus have changed and grown. The current configuration provides little room for error when pulling apparatus in or out and the columns have been struck numerous times. The infrastructure of the station is dated and in need of replacement. This project would be to design a state of the art facility for fire-rescue to continue to serve the community.

PROJECT NAME: Portable Radio Replacement

DEPARTMENT: 08 Fire

FUND: 340 Capital Project Fund

PROJECT NUMBER: 25E03

CIP SCORE:

DEPT RANK: 4

PROJECT TYPE:

VISION PLAN: Governance

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Replacement of Fire-Rescue Department portable radios to meet the demands of technology and changing dynamics of communications in the fire service. The current portable radios are beyond their published service life (5-7 years) and are no longer supported by the manufacturer, additionally they are out of the provided warranty for repairs, and this can be very expensive. This is a continuation of the transition to new portable radios which are also in compliance with Collier County's criteria of technology advancement. The new portable radios have multiple capabilities, including UHF, VHF, 700 and 800 mhz. The new radios also have GPS capabilities which will enhance command & control and firefighter safety.

PROJECT NAME: Tree Fill-In and Replacement Program

DEPARTMENT: 09 Parks, Recreation & Facilities **FUND:** 340 Capital Project Fund

PROJECT NUMBER: 25F03 **CIP SCORE:** 49 **DEPT RANK:** 11

PROJECT TYPE: Replacement **VISION PLAN:** Character/Culture

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

FY 2024/25: This project funds the City's tree replacement program by planting trees within the ROW and City Parks. An estimated 100-200 trees per year will be planted. The final number of trees to be planted depends on the species, size selected, and pricing based on new contract pricing that will be in effect in the spring of 2025. Currently we are not spending the total amount budgeted, however, we budget this amount based on replacing 100-200 trees per year at a cost of \$800-\$1,000 each. All trees planted will have a 1-year warranty and the per tree cost includes fertilization, water and potential replacement costs as required (in the first year). Staff is requesting \$250,000 for FY25 for tree replacements to continue the effort to add canopy coverage to the city's Urban Forest. The trees to be replaced are determined by the tree inventory report.

DEPARTMENT: 09 Parks, Recreation & Facilities **FUND:** 340 Capital Project Fund

PROJECT NUMBER: 25F32 **CIP SCORE:** 55 **DEPT RANK:** 10

PROJECT TYPE: Replacement **VISION PLAN:** Character/Culture

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

FY 2024/25: \$400,000 of the funds will be used to construct Banyan Blvd median project which includes replacing plants, soil, and irrigation. Approximately \$50,000 will be used for design services for Harbor Drive medians that will be constructed during FY26. This was a project funded in FY24, but due to the cost and scope of the Central Ave project it went over budget. The funds were carried over from FY23 to FY24 so the Central Ave project could be completed. The Banyan Blvd construction and Harbor Dr design is being pushed to FY25, which is the reason for the duplicated request.

PROJECT COST

Fund	Dept	Div	Function	Object	FY 2024-25	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29

DEPARTMENT: 09 Parks, Recreation & Facilities **FUND:** 340 Capital Project Fund

PROJECT NUMBER: 25F01 **CIP SCORE:** 38 **DEPT RANK:** 9

PROJECT TYPE: Replacement **VISION PLAN:** Governance

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

FY 2024/25: The department requests funds to replace vehicle #84E4143; 2014 Econoline Van used for Irrigation maintenance. Current maintenance cost to date is \$27,640.55, provided by equipment services. The replacement cost with an anticipated 20% markup is \$65,000. The mileage on the vehicle is 42,537, which are city miles that put more wear on the vehicle.

DEPARTMENT: 09 Parks, Recreation & Facilities **FUND:** 340 Capital Project Fund

PROJECT NUMBER: 25F02 **CIP SCORE:** 62 **DEPT RANK:** 8

PROJECT TYPE: Replacement **VISION PLAN:** Environmental Sensitivity

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

FY2024-25: Ferris Rover XC FS1200 Ride-On Fertilizer Spreader. This will replace the same unit that is in service 84K8131 2017 ride on spreader. This unit is used for fertilizing large turf sites in parks, medians, and traffic islands throughout the city. This unit provides the operator the most efficient option for fertilizing our turf sites. Replacement cost is \$8,249 at current day cost. New purchase for articulated tandem roller. Current cost is \$24,950 per Sourcewell contract #062320. We will utilize this unit to maintain the playing surfaces of our athletic fields, soil stabilization during landscaping projects, and any other reasonable uses for rolling. Rolling an athletic field cost approximately \$3,000 each occurrence using a contractor. We anticipate this being used an estimated 5 times per year at least, which is \$15,000 spent. In two years, the investment to purchase one would pay for itself.

PROJECT NAME: Urban Forest Tree Inventory Update

DEPARTMENT: 09 Parks, Recreation & Facilities **FUND:** 340 Capital Project Fund

PROJECT NUMBER: 25F05 **CIP SCORE:** 73 **DEPT RANK:** 2

PROJECT TYPE: New **VISION PLAN:** Character/Culture

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

FY2024-25: To provide a critical comprehensive update to the existing City of Naples Urban Forest tree inventory. This will assist in helping the City of Naples continue their commitment to public safety, environmental stewardship, and best practices. The data collected during the inventory can be used for a variety of tasks, including making risk-related decisions, setting budgets, allocating staff and equipment, developing plans and selecting trees for planting. Estimated contractor cost is \$150,000. The contractor would update the GIS information for each city tree (over 20,000), and update the condition, height, caliper, and other stats. This is a project that is completed every 5 years.

PROJECT TYPE: New **VISION PLAN:** Governance

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

FY2024-25: The recreation division does not have a vehicle for staff use, which includes the Deputy Director, Recreation Superintendent, Park Managers, and other recreation staff. Currently, they travel between facilities, attend training/conferences, and meetings in various locations. They are using their personal vehicles, so we would like to get a vehicle for them to use for these purposes.

FY2026-27: The recreation division would purchase a second vehicle to increase the vehicle fleet. This would provide 2 vehicles to be shared between the Recreation division and Administration.

DEPARTMENT: 09 Parks, Recreation & Facilities **FUND:** 340 Capital Project Fund

PROJECT NUMBER: 25G01 **CIP SCORE:** 80 **DEPT RANK:** 1

PROJECT TYPE: Replacement **VISION PLAN:** Quality of Life

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

FY 2024/25: The department's Master Plan is 5 years old and in need of an update. The Master Plan is our road map to determining the needs of the community related to recreation. Most of the recommendations in the current plan have been completed. As trends change and we get new community members, it is important to ensure we are meeting the needs of our community. The plan will provide recommendations, public input, conceptuels, demographics data, etc. We estimate this costing around \$200,000. The next update would need to be approximately 5 years after approval of this update.

2024-2025 CAPITAL REQUEST

PROJECT NAME: Baker Park Improvements

DEPARTMENT: 09 Parks, Recreation & Facilities **FUND:** 340 Capital Project Fund

PROJECT NUMBER: 25C10 / 25A03 **CIP SCORE:** 78 **DEPT RANK:** 3

PROJECT TYPE: Replacement **VISION PLAN:** Quality of Life

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

FY2024-25: Improvements to facility including but not limited to paver replacement, building improvements which will be included in the CRA CIP in the amount of \$150,000. In addition, \$950,000 is being requested to construct an office and restroom to fulfill the needs of the park, and this includes the design/planning. The park has been open for a few years now and a restroom is needed in the playground area to serve the park users, and a park office is needed for staff to be able to be present. This project would be funded out of the Baker Park Fund.

FY2028-29: \$100,000 is requested to maintain the level of service with the park to include any needed improvements.

CAPITAL IMPROVEMENTS PROGRAM

WATER SEWER FUND

Projects in the Water Sewer Fund are funded primarily by the rates paid by water, sewer and irrigation customers. Retained earnings, impact fees, grants and special assessments are other sources of revenue for water and sewer projects. The first year of the FY 2024-25 CIP is \$12.1 million and the five-year total is estimated at \$116.8 million.

The projects scheduled for the next five years for the Water Sewer Fund (Fund 420) are identified on the following pages. Departmental requests planned to begin in Fiscal Year 2024-25 are presented on individual project sheets with cost details. Projects for Fiscal Years 2025-26 and beyond do not have capital project sheets. Notable projects requiring detailed explanations are included below:

Water Distribution System Improvements

The five-year CIP plan includes \$5.5 million for FY 2024-25 for potable water distribution system improvements. The project is broken down into two (2) budget allocations:

1. **\$1.5 million** is budgeted annually as a level of effort to account for water main upgrades, hydrant installations, service line replacements and repair improvements that are identified by staff and/or are addressed as projects arise. Watermains are identified annually that may be deficient in pipe size and/or aging pipe material that become necessary for replacement when considering level of service standards. It is important to note that this annual budget allocation is intended to also account for planned system improvements that may be subject to interlocal agreements for Collier County stormwater and roadway improvements.
2. **\$4.0 million** is allocated within this project to account for the construction of improvements to the potable water system that are recommended as a result of the Water Distribution System Master Plan (WDSMP). It is important to note that the FY 2023-24 budget includes \$500,000 for design services that are necessary to engineer specific improvements that will be constructed. The design services are expected to be underway by the end of FY 2023-24 and will continue into FY 2024-25.

On September 9, 2021, the City Council approved a task order with Weston & Sampson Engineers, Inc. to provide professional engineering services to provide a WDSMP. This project is intended to assist staff with the future replacement of water mains throughout the water service area. The plan will be designed to identify priorities and provide scheduling while considering other projects that may be underway within the City. These water distribution system improvements are proposed to address aging infrastructure and enhance fire protection. The Master Plan was completed in FY 2022-23.

Chlorine Gas to Bleach Conversion

The City of Naples Water Treatment Plant (WTP) and the Wastewater Treatment Plant (WWTP) uses gaseous Chlorine for disinfection. During FY 2022-23, staff contracted an engineering firm

to evaluate the conversion of chlorine gas to sodium hypochlorite (bleach) in order to combat the rising cost of chemicals used for treatment processes. Over the last five years the WTP chlorine consumption has ranged from 158 to 190 tons of chlorine gas per year; the WWTP's consumption has averaged 145 tons of chlorine gas per year. This project will convert each of the Plants' disinfection treatment process from a gaseous chlorine application to a liquid sodium hypochlorite system. These improvements have become an industry standard and will provide a greater level of availability for future chemical requirements. Storage and use of gaseous chlorine is very dangerous and poses a greater safety risk than the storage and use of liquid sodium hypochlorite. Additional benefits that will result from transitioning to liquid sodium hypochlorite from gaseous chlorine include cost savings associated with the City's Risk Management Plan (RMP) and reduced maintenance and operating costs required for the gaseous chlorine system and scrubber system. The FY 2024-25 Capital Improvement Plan includes \$505,000 to account for the chemical conversion improvements at the WTP, and the FY 2025-26 budget has forecasted \$660,000 to address the chemical conversion improvements at the WWTP.

The other projects listed in this section relate to equipment replacements and infrastructure improvements needed to maintain existing levels of service and facilities.

PROJECT NUMBER:	<u>25K02</u>	CIP SCORE:	<u>51</u>																																										
PROJECT TYPE:	Ongoing Maint.	VISION PLAN:	Infrastructure																																										
DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/year, mileage/hours and prior year maintenance costs must be included.																																													
This project is intended to provide funds for on-going infrastructure improvements and necessary equipment replacements for the Water Treatment Plant. This project includes improvements for FY 2024-25 that include, but are not limited to, roof replacements for both the Sludge Press Building (\$42K), and High Service Pump Room (\$50K). This project is also intended to fund any unforeseen improvements that may be required within the facility. Future years are intended to address roof replacements, large piping and valve replacements, and facility improvements.

2023-2024 CAPITAL REQUEST

PROJECT NAME: Water Treatment Plant Pumps

DEPARTMENT: 20 Utilities Water Dept **FUND:** 420 Water/Sewer Fund

PROJECT NUMBER: 25K11 **CIP SCORE:** 35 **DEPT RANK:** 6

PROJECT TYPE: Ongoing Maint.

VISION PLAN: Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

This request will accommodate the ongoing replacement of pumps, motors, and drives that have met their useful life and cannot be rebuilt within the Water Treatment Plant. The Water Plant contains 11 HSPs that are used for pressurizing the water distribution system. Staff has recommended the evaluation of these units for replacement and/or rehab on an annual basis in order to maintain an expected level of service without interruptions. Check valves and associated piping will also be evaluated and replaced as needed. Future years are projected for the on-going replacement of pumps and motors that operate within the Plant.

PROJECT NAME: Clearwell Rehabs (underground water storage) - Water Treatment Plant

DEPARTMENT: 20 Utilities Water Dept **FUND:** 420 Water/Sewer Fund

PROJECT NUMBER: 25K57 **CIP SCORE:** 51 **DEPT RANK:** 7

PROJECT TYPE: Ongoing Maint.

VISION PLAN: Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

This project is intended to provide funds for on-going infrastructure improvements and necessary equipment replacements for the Water Treatment Plant's clear wells. The Water Plant contains five (5) clear wells that provide on-site water storage that aid in treatment processes and daily distribution activities. As a result of annual storage tank inspections, the Florida Department of Environmental Protection has mandated necessary repairs be performed to the Plant's clear wells. FY 2024-25 includes funding for contracted services to drain one clear well (2b), provide internal wall surface preparations, address minor concrete repairs (cracks), and apply surface coatings in an effort to extend the useful life of the water storage facility. Future years are intended to address the remaining three clear wells (Note - FY 2023-24 and FY 2024-25 are addressing the two smallest clear wells; 2a and 2b).

PROJECT NAME: Chlorine Gas to Bleach Conversion - Water Plant

DEPARTMENT: 20 Utilities Water Dept **FUND:** 420 Water/Sewer Fund

PROJECT NUMBER: 25K03 **CIP SCORE:** 76 **DEPT RANK:** 14

PROJECT TYPE: New **VISION PLAN:** Governance

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

The City of Naples Water Treatment Plant (WTP) uses gaseous chlorine for disinfection. Over the last five years the WTP chlorine consumption has ranged from 158 to 190 tons of chlorine gas per year. This project will convert the Plant's disinfection treatment process from a gaseous chlorine application to a liquid sodium hypochlorite system. These improvements have become an industry standard and will provide a greater level of availability for future chemical requirements. Storage and use of gaseous chlorine is dangerous and poses a greater safety risk than the storage and use of liquid sodium hypochlorite. Additional benefits that will result from transitioning to liquid sodium hypochlorite from gaseous chlorine include cost savings associated with the City's Risk Management Plan (RMP) and reduced maintenance and operating costs required for the gaseous chlorine system and scrubber system.

PROJECT NAME: Water Transmission Mains - Water Distribution

DEPARTMENT: 20 Utilities Water Dept **FUND:** 420 Water/Sewer Fund

PROJECT NUMBER: 25L02 **CIP SCORE:** 76 **DEPT RANK:** 1

PROJECT TYPE: Ongoing Maint.

VISION PLAN: Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

This is a recurring project dictated by the 2018 hydraulic model update, upgrades to the system based on development, and recommendations that result from the Water Distribution System Master Plan (WDSMP). As a base level of effort, \$5,500,000 has been budgeted for the replacement of water mains and service lines that have been identified due to age, having hydraulic issues, or as identified in the hydraulic model to be replaced; this amount also accounts for any design services necessary for infrastructure replacement. Funds have been included within this project for FY 2025-26 to provide a "place holder" for water main replacements that will be performed in conjunction with the Sanitary Sewer System installations - West Goodlette project (Phase 2).

PROJECT NAME: Service Truck Replacements (1) - Water Distribution

DEPARTMENT: 20 Utilities Water Dept

FUND: 420 Water/Sewer Fund

PROJECT NUMBER: 25L06

CIP SCORE: 16

DEPT RANK: 20

PROJECT TYPE: Replacement

VISION PLAN: Governance

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

This request is for the replacement of three service vehicles for the Water Distribution Division that is used for coordinating field repairs, executing maintenance, and inspection/construction oversight of the water distribution system. The vehicles scheduled to be replaced are 1) vehicle 92E223 (2012 Ford Transit Connect), current mileage is 51,883, maintenance costs Life-To-Date: \$15,704; 2) vehicle 92E5501 (2015 Ford Sprinter Van), current mileage is 95,422, maintenance costs Life-To-Date: \$23,365; and 3) vehicle 92E7636 (2017 Ford Transit 150 - "Sprinter Van"), current mileage is 80,576, maintenance costs Life-To-Date: \$26,504. These vehicles have met Equipment Services replacement criteria. Staff intends to purchase similar service vehicles that will meet the demands of the department. Future years are projected for the ongoing replacement of service trucks within the Water Distribution Division (1 vehicle per year).

PROJECT TYPE: Ongoing Maint.

VISION PLAN: Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

This project is an on-going program to repair and/or replace large sewer lines, laterals, valves, and manholes throughout the wastewater collection system. These projects involve either lining or excavation and replacement of lines that have structural failures that allow infiltration of groundwater, silt, and sand into the City's collection lines. Future years in the request will account for improvements resulting from the Sewer Collection System Master Plan being executed in FY 2023-24 (costs applicable to the SC SMP are listed as "To Be Determined" (TBD) at this time).

Include any prior year carryforward* in this requested amount.

PROJECT NAME: Wastewater Collections Facility Improvements

DEPARTMENT: Utilities Sewer Dept **FUND:** 420 Water/Sewer Fund

PROJECT NUMBER: 25N10

PROJECT TYPE: Replacement **VISION PLAN:** Infrastructure

Year maintenance costs must be included.

The Wastewater Collection Divisions operate

1980's and has had several improvements over the years. The facility is currently requiring garage door replacements (8 doors) in order to meet current wind load requirements, replacement of the rain gutters, and miscellaneous roof repairs. FY 2021-22 initially contained funding for the actual improvements. Upon the project commencing, it was determined that engineering services would be required to address building improvements associated with greater deterioration of the wall skins and roll-up door jams than what was originally expected. The engineer completed the WWC facility evaluation in August 2023; cost to repair the facility was estimated at \$634,000. Staff is securing the necessary engineering services in FY 2024-25 to account for design services for these improvements, with intentions to allocate funding for construction in FY 2025-26. FY 2026-27 contains funding for the roof replacement of the WWC Administrative building.

Include any prior year carryforward* in this requested amount.

Totals for funding sources and project expenses must reconcile for each year.

PROJECT NAME: Replace/Upgrade Equipment for Remote Pumping Facilities - Utilities Maintenance

DEPARTMENT: 40 Utilities Maintenance **FUND:** 420 Water/Sewer Fund

PROJECT NUMBER: 25X01 **CIP SCORE:** 65 **DEPT RANK:** 3

PROJECT TYPE: Ongoing Maint. **VISION PLAN:** Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

This project is intended for the replacement of equipment including pumps, motors, control valves, meters, and electrical services, well head replacements, telemetry upgrades/components, flushing devices, facility improvements and any other material or services that may be required to maintain the Coastal Ridge and Golden Gate Wellfields, including the remote pumping facilities. The routine replacement of well pumps and motors is a primary objective for this project and is essential to maintaining raw water production from the wellfields. The average useful life of a submersible pump and motor is 5 to 10 years. The average cost for a pump/motor replacement combination is: \$15,800 for a 20HP unit to \$29,900 for a 75HP unit. The Coastal Ridge wells are 20HP, and the Golden Gate Wells are 40HP, 60HP, & 75HP units. FY 2024-25 includes funding for flushing devices (**\$200,000**) and well pump and motors (**\$200,000**). Future years account for an annual level of effort for remote pumping facilities.

PROJECT NAME: Pump Station Improvements - Utilities Maintenance

DEPARTMENT: 40 Utilities Maintenance

FUND: 420 Water/Sewer Fund

PROJECT NUMBER: 25X02

CIP SCORE: 65

DEPT RANK: 9

PROJECT TYPE: Ongoing Maint.

VISION PLAN: Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Providing upgrades and piping rehab improvements to at least four sewer pump stations within the City's sewer collections system on an annual basis. The project may include any necessary design services, wet well improvements, wet well lining, odor control equipment, installation of new pumps, modifying pipe works, replacing valves, and structure upgrades. These improvements will enhance operating efficiencies and improve safety for required maintenance activities on sewer pump stations. This project will improve antiquated sewer pump stations with current controls, piping, electrical services, and new communication equipment in order to operate more efficiently. The project will also include wet well lining services that are intended to reduce infiltration and bring deteriorated and leaking pump station wet wells back to their original structural integrity. This project is intended to have the flexibility to target improvements for stations that will be in the best interests of the City. Locations for selected improvements are determined on an annual basis and are evaluated based on site conditions, cost, development, and department priorities that tend to arise each year. Future years are projected to address four stations per year for improvements.

PROJECT NAME: Submersible Pump Replacements - Utilities Maintenance

DEPARTMENT: 40 Utilities Maintenance **FUND:** 420 Water/Sewer Fund

PROJECT NUMBER: 25X04 **CIP SCORE:** 35 **DEPT RANK:** 10

PROJECT TYPE: Replacement **VISION PLAN:** Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

This project is intended for the replacement of equipment including pumps, motors, control valves, check valves, and electrical services that typically operate in conjunction with submersible pumps for the sewer collections system. Many of the City's submersible pumps are 15 to 25+ years old and have not been manufactured for over 10 years. The stator housings are so worn from deterioration, that many of the units can no longer be repaired. This is an on-going project to assure continued and efficient operation through scheduled replacements. The City operates 125 submersible pump stations in our wastewater system, with each site containing two to three pumps per site. Required pump replacement units range in cost from \$8,700 to \$69,000 per unit depending on horsepower rating.

CAPITAL IMPROVEMENTS PROGRAM

BUILDING PERMIT FUND

The Building Permit Fund is a Special Revenue Fund, supported by building and permit fees. This Fund is used to account for activities related to construction code compliance within the City.

The Department has identified two (2) capital improvement projects for FY 24-25. These capital improvement projects are vehicle replacements and building renovations.

Vehicle replacements are determined based upon the 15-point criteria and other factors such as dependability, repair and replacement costs. Vehicles on the CIP for the upcoming years meet these criteria.

Building renovation amounts are estimates for updating of the building to provide working spaces more efficient for the electronic permitting, and to provide room for current and anticipated future staffing levels. Additional considerations are being made to address an old generator located within the building that experienced trouble in Hurricane Ian. Design work and estimates will need to be done to locate a new generator in a separate hardened structure outside of the existing building.

CAPITAL IMPROVEMENTS PROGRAM
Community Redevelopment Agency (CRA)

The CRA Capital Planning Process

The FY2025-2029 CIP has been developed to meet the goals, objectives and policies of the Naples Redevelopment Plan as defined by the CRA Board. During the current fiscal year, at the recommendation of the CRA Board, City Council has funded the streetscape design for the 1st Ave South, 12th St South and 10th St corridor improvements, affordable housing projects, design and construction of Naples Design District alley activation demonstration project, land acquisition for the property located at 170 10th St North, landscape and lighting improvements surrounding Sugden Theater, and a Construction Manager at Risk contract and construction of the 1st Ave South Public Parking garage. The recommended CIP presupposes the 1st Ave S Public Parking garage financing of \$15.0 million over a ten-year period. This is \$3.0 million more than projected in the FY23-24 CIP. \$1.0 million of the original projected amount is encumbered for the Construction Manager at Risk contract.

Between the months of April and June 2024, staff will present the proposed projects to the CRA Advisory Board, the CRA Board and City Council. Residents and business owners will have an opportunity to provide input during these public meetings. The 5-year CIP program will be modified based upon the decisions made by the CRA Board and City Council.

As the Board, the community, and the affected stakeholders work through the public process of determining the appropriate allocation of resources, the opportunity to finance additional improvements may be considered. While financing increases the cost of a project, the potential increases in the cost of construction and materials are avoided.

Narrative descriptions of proposed potential future projects follow:

1st Avenue South, 12th Street South, and 10th Street North Improvements.

Per CRA land use and transportation policies, in FY23-24 the CRA appropriated \$400,000 for streetscape design of the project. The FY24-25 CRA budget recommends \$3.3 million to complete the first phase of streetscape improvements on 1st Avenue South between 8th St. South and Goodlette-Frank Rd, 12th Street S between 1st Ave South and Central Avenue, and 10th Street North between Central Avenue and 7th Avenue North. Utilities and stormwater improvements within these corridors will be funded from the Utility Fund and Stormwater Fund. The design process, which will include community engagement and complete construction drawings, will provide a full and accurate budget, scope and phasing for the project. Required funding from the Utility Fund and Stormwater Fund will be determined during the project design and funding will be requested at the appropriate time.

Affordable Housing

Per the CRA policy to increase the amount of affordable housing within the CRA, the CRA Board and City Council approved \$100,000 in the FY21 budget to develop an Affordable Housing study report for the CRA. The "Affordable Housing Projects" has allocated \$3.0 million in FY22-23 and an additional \$2.0 million in FY23-24 as the CRA Board considered Affordable Housing initiatives. In FY23-24 the CRA spent \$1.9 million from the Affordable Housing Project fund for land acquisition. This project includes a carryover of \$3.85 million and recommends an additional \$1.0

million for a total of \$4.085 million in anticipation of opportunities to purchase suitable land and/or partner with other landowners interested in developing affordable housing. If additional opportunities become available in the current budget year that the CRA acts upon, the carryover and total balances will be reduced.

Naples Design District Improvements

In FY21, the CRA Board and City Council approved funding to develop a 41-10 Master Plan. Upon completion and acceptance of the Master Plan, the CRA Board agreed to refer to the Master Plan area as the Naples Design District. Per CRA Parks and Open Space policy to support the creation of public spaces that attract users to the Redevelopment Area and support businesses, and the CRA implementation strategies for the Naples Design District Master Plan to activate alleyways through the creation of the Design Walk, in FY23 the CRA allocated \$155,000 for final design plans for a Design Walk demonstration project on the block west of 10th St South and between 1st Ave South and Central Avenue, and allocated \$1.5 million for construction of improvements to include hardscape, art, lighting, waste management, and entry features. Due to the adjacency and water line replacement and tie into the 1st Avenue South construction project, the Design Walk demonstration project schedule and FY23-24 funding is being carried over to align the timeline of both construction projects to minimize costs and disruption to business owners and residents.

6th Ave N Landscape

Per CRA Environmental Policy to enhance the visual attractiveness of the Redevelopment Area through landscaped features, and to implement the Naples Design District Master Plan strategies, this project recommends \$225,000 to design and construct landscape and irrigation improvements on 6th Ave North from US 41 to the street terminus just east of 11th St N. The project cost estimate is based on FY 22-23 10th St N and the Avenues landscape and irrigation project.

5th Ave South and Sugden Plaza

Per CRA Environmental Policy to enhance the visual attractiveness of the Redevelopment Area through landscaped features, pedestrian-scale lighting and street furnishings, and to implement the GAI landscape and hardscape concept study completed in 2020, this project recommends \$400,000 for final construction design for hardscape, landscape, irrigation, electrical and street furnishings for 5th Ave South and Sugden Plaza. The design cost will be refined through an RFP process.

Land Acquisition

Per the CRA Land Use, Housing, Parks and Open Space, Transportation, Economic Development and Cultural policies this project recommends \$2.0 million to purchase land to meet the needs within the Redevelopment Area for any of the following: affordable housing, open space, infrastructure, parking, economic development, or cultural facilities. The specific use is dependent on property location, surrounding uses and character, and partnership opportunities. In FY23-24 the CRA, in partnership with the City of Naples, approved an agreement with CBRE, Inc, for real estate services through FY 2025-2026 to be paid from operating expenses.

Community Policing Vehicles

Per CRA Redevelopment Plan authorization to provide funding for community policing within the CRA area, this project recommends \$277,500 to purchase three (3) marked Ford Explorer Interceptor police vehicles to be included within the fleet for the three CRA Community Police Unit officers. The three CRA officers currently do not have assigned vehicles for their districts and must share from the Patrol fleet, if available. The new vehicles will enable CRA officers to keep

readily accessible the equipment necessary for providing police services, including first aid kits, external defibrillators, and active-shooter response gear. The Interceptors will be equipped with the enhanced camera/computer assisted traffic safety, such as crash sensors, back-up sensors, enhanced driver-assist and surrounding alerting all provide officers with a safer, more reliable work environment with increased preventative vehicle maintenance abilities and workstations. The CRA last appropriated funding for community policing equipment in 2018 with the purchase of two bicycles.

Baker Park

Per the CRA Parks and Open Space policy to improve the existing facilities and expand the programs offered in the various parks within the Redevelopment Area, this project recommends \$150,000 to improve approximately 8,000 square feet of hardscape areas around the Gomez Center within Baker Park. The CRA last appropriated funding for Baker Park in 2016 with the construction of a gateway feature.

River Park

Per the CRA Parks and Open Space policy to improve the existing facilities and expand the programs offered in the various parks within the Redevelopment Area, this project recommends \$100,000 to provide a new tile and surface for the community pool. The CRA last appropriated funding for River Park in 2019 with the purchase of fitness equipment.

Anthony Park

Per the CRA Parks and Open Space policy to improve the existing facilities and expand the programs offered in the various parks within the Redevelopment Area, this project recommends \$50,000 to improve Anthony Park by providing a shade structure over the community center patio, approximately 300 square feet. The CRA last appropriated funding for Anthony Park in 2020 with the purchase of fitness equipment.

Background

The original Community Redevelopment Plan was approved by the Naples City Council on May 18, 1994, pursuant to Resolution 94-7202. Over the ensuing years various capital improvements were completed including construction of Sugden Plaza, construction of two new public parking garages in the 5th Avenue South Overlay District, landscape and lighting improvements throughout the CRA district, major street improvements for Central Avenue, 3rd Ave South and 8th Street, and various park facilities and programs improvements.

Following several public meetings, on January 15, 2014, City Council approved Resolution 14-13401 adopting the amended and modified Naples Community Redevelopment Agency Redevelopment Plan. That Plan extended the CRA sunset date, providing a time certain for completing all redevelopment financed by increment revenue (September 30, 2044). Included in the Plan is a workable program for using public resources to fund redevelopment initiatives, a broad vision of redevelopment initiatives, and redevelopment goals, objectives, policies, strategies, and increment revenue projections to implement the plan.

Florida Statute 163.387(7) in the Florida Community Redevelopment Act restricts the authority of the CRA to “save up” funds. Essentially, the CRA cannot continue to hold money without allocating it to a specific project. This section requires that funds remaining in the Redevelopment Trust Fund on the last day of the fiscal year shall be:

- a) Returned to each taxing authority which paid the increment in the proportion that the amount of the payment of such taxing authority bears to the total amount paid into the trust fund by all taxing authorities for that year;
- b) Used to reduce the amount of any indebtedness to which increment revenues are pledged;
- c) Deposited into an escrow account for the purpose of later reducing any indebtedness to which increment revenues are pledged; or
- d) Appropriated to a specific redevelopment project pursuant to an approved community redevelopment plan. The funds appropriated for such project may not be changed unless the project is amended, redesigned, or delayed, in which case the funds must be reappropriated pursuant to the next annual budget adopted by the board of commissioners of the community redevelopment agency.

Projects recommended in the CRA's FY25-29 CIP schedule are consistent with the CRA Redevelopment Plan.

City of Naples, FL
2024-2025 CAPITAL REQUEST

PROJECT NAME: 1st Avenue South, 10th Street North, 12th Street South Improvements

DEPARTMENT: 15 Comm Redevelopment **FUND:** 180 Community Development Fund

PROJECT NUMBER: 25C02 **CIP SCORE:** 84 **DEPT RANK:** 2

PROJECT TYPE: New **VISION PLAN:** Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Per CRA Land Use and Transportation policies this project will reconstruct 3 corridors to provide adequate public infrastructure in the redevelopment area. In FY 2023, the CRA approved an agreement with the City of Naples and Grady Minor for streetscape, utility and stormwater design, permitting and bidding services for the following street segments: **1st Avenue South** from Goodlette Frank Road to 8th Street; **12th Street South** from 1st Avenue South to Central Avenue; and **10th Street** from 7th Avenue North to 5th Avenue South. This FY 24-25 project is for Phase 1 construction, which is anticipated to include 1st Ave S and 12th St S. **The project cost estimate for the CRA streetscape was derived from the cost of 8th Street improvements plus a 20% increase. The accuracy of construction costs will be refined by Grady Minor during the project design phase. The opinion of probable cost will be provided in the second quarter of 2024.**

PROJECT NAME: Affordable Housing Projects

DEPARTMENT: 15 Comm Redevelopment

FUND: 180 Community Development Fund

PROJECT NUMBER: 25C16

CIP SCORE: 42

DEPT RANK:

PROJECT TYPE: New

VISION PLAN: Economic Health

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Per the CRA policy to increase the amount of affordable housing within the CRA, this project is in anticipation of opportunities to purchase suitable land and/or partner with other landowners interested in developing affordable housing. In FY 2023 the CRA spent \$1.9 million from the affordable housing project fund for land acquisition. If additional opportunities become available in the current budget year that the CRA acts upon, the carryover and total balances will be reduced.

CIP SCORE: 84

DEPT RANK: 3

PROJECT TYPE:

VISION PLAN: Character/Culture

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Per CRA Parks and Open Space policy to support the creation of public spaces that attract users to the Redevelopment Area and support businesses, this project will advance the CRA implementation strategies for the Naples Design District Master Plan to activate alleyways through the creation of the Design Walk. The project, located west of 10th and between 1st Ave S and Central Ave, is currently under design by contract with DPZ CoDesign in the amount of \$155,000. Design elements include hardscape, art, lighting, waste management, and entry features. The FY 23-24 funding for construction is being carried over to align the construction timeline with the 1st Ave S street improvements.

PROJECT TYPE: New **VISION PLAN:** Economic Health

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Per the CRA Land Use, Housing, Parks and Open Space, Transportation, Economic Development and Cultural policies this project will purchase land to meet the needs within the Redevelopment Area for any of the following: affordable housing, open space, infrastructure, parking, economic development or cultural facilities. The specific use is dependent on property location, surrounding uses and character, and partnership opportunities. The CRA, in partnership with the City of Naples, approved an agreement with CBRE, Inc, for real estate services through FY 2025-2026. No CRA funds have been encumbered for real estate services. The fees associated with the CRA purchase of 170 10th St N were paid by the seller, as outlined in the CBRE, Inc agreement.

PROJECT NAME: Community Policing Vehicles (3)

DEPARTMENT: 15 Comm Redevelopment

FUND: 180 Community Revitalization Fund

PROJECT NUMBER: 25C18

CIP SCORE: 54

DEPT RANK:

PROJECT TYPE: New

VISION PLAN: Public Safety

Per CRA Redevelopment Plan authorization to provide funding for community policing within the CRA area, this project will purchase three (3) marked Ford Explorer Interceptor police vehicles within the fleet for the three CRA Community Police Unit officers. The three CRA officers currently do not have assigned vehicles for their districts and must share from the Patrol fleet, if available. The new vehicles will enable CRA officers to keep readily accessible the equipment necessary for providing police services, including first aid kits, external defibrillators, and active-shooter response gear. The Interceptors will be equipped with the enhanced camera/computer assisted traffic safety, such as crash sensors, back-up sensors, enhanced driver-assist and surrounding alerting all provide officers with a safer, more reliable work environment with increased preventative vehicle maintenance abilities and workstations.

CAPITAL IMPROVEMENTS PROGRAM

STREETS & TRAFFIC FUND

Overview

The Streets fund is responsible for maintaining and improving all City streets, pathways, intersections, street markings, decorative streetlights, sidewalks, traffic signs and signalization. The fund also supports operational responsibilities for energizing streetlights, reviewing traffic impacts from proposed development plans, administering right-of-way and franchise permitting, and processing easement, platting and vacation requests. The primary funding sources for capital projects are gas taxes and the communications tax. Other minor revenue sources include funding from an interlocal agreement with Collier County related to collection of impact fees, agreements with the Florida Department of Transportation (FDOT) related to traffic signal and street light operations on US41, right-of-way permitting fees, and the State Revenue Sharing program.

In FY 2024-25, the Division continues to focus on citywide roadway resurfacing efforts and completing a streets initiative along the corridor of South Golf Drive. The South Golf Drive project is intended to provide a safe, multi-modal transportation corridor between Gulf Shore Boulevard North and US-41 within the City of Naples that will include new sidewalk(s), parking spaces, buffered bike lanes, stormwater infrastructure, traffic calming, landscape and irrigation improvements.

2024-25 Capital Discussion

As local economic conditions continue to show signs of growth, the Streets and Traffic Division continues to coordinate with the Community Redevelopment Agency (CRA), other city departments, and private developers to find ways to preserve, maintain, and improve pavement conditions and infrastructure within the City's rights-of-way. Additional ways the Department produces results is through coordination with the FDOT and the Metropolitan Planning Organization (MPO). FDOT funded projects are detailed on the CIP list of projects over the next five years.

The Department works extensively with public and private utility companies, as well as private developers, to understand the timing of planned infrastructure improvements. This effort is needed to minimize repeated impacts within the right-of-way and to prevent damage to new pavements. The Department recognizes planned infrastructure improvements by the Utilities Department, as well as private utility companies and home builders, and schedules street and alley resurfacing to occur after the most disruptive activities.

Capital projects within the Streets and Traffic Division of the Department are identified and detailed on the accompanying pages.

CAPITAL IMPROVEMENTS PROGRAM

SOLID WASTE FUND

The Solid Waste fund is an Enterprise Fund, funded primarily with solid waste fees for residential, multi-family and commercial collections. The fund is used to account for the activities related to proper operation and management of the City's solid waste collection and disposal.

2024-25 Capital Discussion

The Solid Waste Division services approximately 7,700 residences (single family, duplexes, and triplexes) and 9,000 Multi-Family units (complexes with four or more units). Commercial waste is collected from approximately 650 commercial customers and 500 condominiums. Small satellite collection vehicles with dump bodies are used for the side-yard residential collection service provided by the City. The small satellite vehicles haul the collected waste to the large refuse trucks that transfer and dispose of the garbage at the Collier County landfill. The department has 9 small trucks and 19 large trucks that perform residential, commercial, recycling, and horticulture collection services.

Refuse collection vehicles are considered the heart of the Solid Waste operation regarding the collection and disposal of municipal waste within the City's service area. Large refuse collection vehicles require high maintenance and repair costs due to extensive idle time and constant operation. As a result of manufacturing delays stemming from the COVID pandemic, large refuse trucks continue to show signs of limited availability. Staff has accelerated the replacement of large refuse trucks over the past three budget cycles, including next year's request, in which three (3) large refuse trucks have been proposed in FY 2024-25 in the amount of \$1,115,000.

Future on-going capital requirements for the Solid Waste Division primarily include the replacement of service vehicles that meet Equipment Services replacement criteria based on mileage, age, and maintenance costs. These vehicles can no longer be restored via the City's rehabilitation program and require replacement. Additionally, due to the extensive wear, idle time, and constant operation on these types of vehicles, they are scheduled to be replaced every five (5) to eight (8) years. FY 2026 through FY 2029 will account for the replacement of one small satellite collection vehicle (\$55,000) and two large refuse trucks (\$415,000 each) per year for collecting residential and commercial waste.

Since FY 2010-11, the department has been rebuilding both small and large solid waste vehicles, thereby extending the useful life of each vehicle by two to four years. Vehicle rebuilds typically include refurbishment of the truck bodies and replacement of hydraulic hoses and cylinders. The cost of a new large truck is \$415,000 compared to the rebuild cost of \$75,000 - \$100,000 per truck. The FY 2025-2029 CIP plan includes \$200,000 per year to account for solid waste vehicle rebuilds.

PROJECT NAME: Large Refuse Vehicle Replacements (3)

DEPARTMENT: 12 Solid Waste **FUND:** 450 Solid Waste Fund

PROJECT NUMBER: 25P01 **CIP SCORE:** 52

DEPT RANK: 1

PROJECT TYPE: Replacement **VISION PLAN:** Governance

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Large refuse collection vehicles require high maintenance and repair costs due to extensive idle time and constant operation. The existing vehicles, due to high usage, age, and maintenance costs, have met the Equipment Services replacement criteria and are in need of replacement. Due to the extensive wear on these types of vehicles, they are scheduled to be replaced every eight (8) years. There are three (3) vehicles being recommended for replacement during FY 2025: 1) Vehicle 8814580: 2013 Mack Truck - Automated SIDE Loader; current mileage: 69,125, and maintenance costs Life-To-Date: \$231,000. 2) Vehicle 8219840: 2019 Mack Truck - FRONT Loader; current mileage: 82,126, and maintenance costs Life-To-Date: \$138,790. 3) Two existing vehicles 811757 and 841759 (previously retired): 2007 International - GRAPPLE trucks. FY 2026 through FY 2029 is projected to replace two large refuse trucks per year (budget projections based on front load refuse truck; \$415,000/truck - accounts for 10% above 2024 pricing).

CAPITAL IMPROVEMENTS PROGRAM

STORMWATER FUND

Overview

The City's Stormwater fund is charged with protecting people and property against flood by maintaining and improving the City's stormwater management system, while protecting and restoring ecological systems that work naturally to improve water quality, the environment, and the quality of life for residents, businesses and visitors. Interest for improving the quality of stormwater runoff has been strong, particularly in light of water quality concerns within lakes, Bays and the Gulf of Mexico. Red tide and harmful algal blooms are examples of recent water quality concerns that are exacerbated by stormwater runoff containing nutrients, suspended solids, bacteria and metals.

The fund is operated as an enterprise fund, where users pay a fee. The fee for a typical homeowner is \$17.32 per month, or \$34.64 per bi-monthly bill. City code allows the fee to change every October by the Consumer Price Index. Payers have an opportunity to receive a credit on their fee if they exceed the City's code-required volumetric water quality storage in an onsite stormwater management system.

In FY 20-21 City Council directed staff to accelerate a Stormwater Utility Fund Rate Study. This study includes a comprehensive public involvement process and continued efforts to analyze anticipated expenditures and revenue projections for the fund, inclusive of debt service. As some of the larger stormwater projects approached final design resulting in estimated construction costs, rates continued to be reviewed and evaluated during FY 2023-24. It is important to note that the FY 2024-25 Capital Improvement Plan does not account for the \$90 million Beach Outfall Project, nor any of the improvements identified within the Multi-Basin Assessment that was completed and presented to City Council earlier in FY 2023-24. Rate adjustments will be required based on the speed and veracity of these projects being considered and implemented by the City Council.

Identified on the accompanying pages are details for FY 2024-25 capital projects that are intended to achieve the mission of the Department, with estimates for capital projects and financials through FY 2028-29.

PROJECT NAME: Citywide Stormwater Improvements

DEPARTMENT: 60 Storm Water/Drainage **FUND:** 470 Storm Water Fund

PROJECT NUMBER: 25V02 **CIP SCORE:** 90 **DEPT RANK:** 1

PROJECT TYPE: Ongoing Maint.

VISION PLAN: Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

The purpose of this ongoing, annual project is to protect both private and public property from adverse high-water conditions caused by storm events of various magnitudes. Capital work under this program may include the investigation and repair of major and minor storm sewers, drainage inlets and manholes, inlet filter and baskets, tidal backflow valves at outfalls, control structures, pump station hardware, discharge/outfall structures, culverts, concrete and grass swales, and related drainage facilities on an ongoing annual basis. Appropriate levels of replacement and/or construction of new supplemental drainage facilities are critical to maintaining desired or prescribed stormwater levels of service. Inspection, replacement, pipe lining, and installation of stormwater drainage facilities throughout the City, along with repair and replacement of pump station hardware, lake equipment, surveying, design, permitting and engineering. Such work is typically performed by contractors under annual service contracts with the most competitive pricing and most qualified staff. In addition, this project will fund ongoing GIS data acquisition and mapping for all basins as required by the City's NPDES permit.

PROJECT TYPE: New	DEPT RANK:									
DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/year, mileage/hours and prior year maintenance costs must be included.										
<p>Prior to March of 2024, this project was intended to be fully funded by FDOT; project costs are not exceeding grant funding. The project scope is to apply a complete streets initiative along the corridor of South Golf Drive. The project would accommodate a safe, multi-modal transportation corridor between Gulf Shore Boulevard North and US-41 within the City of Naples. The project would include new sidewalk(s), parking spaces, buffered bike lanes, stormwater infrastructure, traffic calming, landscape and irrigation improvements. This request is intended to fund the "Stormwater" portion of the improvements being planned for South Golf Drive. Streetscape and Utilities (potable and reclaimed water) improvements will be budgeted within the appropriate funds.</p>

CAPITAL IMPROVEMENTS PROGRAM
Recreation Funds

The following recreational funds, managed by the Community Services department, are requesting Capital Improvement projects for FY 24-25.

The Beach Fund CIP (Fund 430)

- The Beach Fund is an Enterprise Fund receiving the majority of its revenue from beach parking fees. The Fund is used to account for beach parking, maintenance, enforcement, Naples Pier and Lowdermilk Park.

The Tennis Fund (Fund 480)

- The Tennis Fund, an Enterprise Fund, receives most of its revenue from memberships and lessons. The Arthur L. Allen Tennis Center is located at Cambier Park includes twelve courts and a pro shop.

The ensuing pages contain financial estimates and detail for projects requested in FY 24-25 as well as projections for future projects through FY 28-29.

PROJECT NAME: Beach Specialist Vehicle Replacement

DEPARTMENT: 10 Beach

FUND: 430 Beach Fund

PROJECT NUMBER: 25R13

CIP SCORE: 90

DEPT RANK: 1

PROJECT TYPE: Replacement

VISION PLAN: Public Safety

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Replacement of vehicle #65D6795, a 2016 Ford F-150, which has over 63,060 miles. The total maintenance cost to date is \$24,757. Based on the combination of age, mileage, maintenance costs, and condition, the City's equipment Services Division has the replacement score currently (February 2024) as 19.4, which exceeds the replacement threshold score. The Beach Patrol vehicles are used by our Beach Specialists while enforcing parking regulations, transporting equipment, traffic control barricades, and injured animals. The 2016 Ford F-150 will be replaced with a similar pick-up truck, which includes improved safety equipment, a backup camera, emergency lights, and city vehicle graphics.

DEPT RANK: 1

PROJECT TYPE: Replacement

VISION PLAN: Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

Server rooms achieve extremely high temperatures within a very short period causing very costly equipment damage to critical IT components required to operate the enterprise. The ITS HQ Server Room at 295 Riverside Circle has, at times, required supplemental cooling be set up (wheeled into place and ducted) in order to handle the heat loads generated by the server equipment. The data room at Fire Station1 does not have sufficient redundancy to ensure continued operations should the main unit fail. As Server rooms are designed to operate 24 x 7 x 365 the cooling system must be designed to accommodate continuous heat extraction and incorporate automated switch-over/redundancy into the design to continue sufficient cooling operations should the main cooling unit(s) fail.

DEPARTMENT: 80 Technology Services **FUND:** 520 Technology Services Fund

PROJECT NUMBER: 24T02 **CIP SCORE:** 32 **DEPT RANK:** 12

PROJECT TYPE: Replacement **VISION PLAN:** Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

ROLLOVER FROM FY23-24: After applying grant funding to replace much of our server infrastructure this will allow us to complete the server upgrade. Remaining server is beyond its expected (5-year) life span. This CIP plans to upgrade the virtual hardware environment as part of placing them on a planned refresh cycle. Regularly and proactively replacing servers before they break will deliver increased productivity and efficiency possibly avoiding extended outages and loss of data.

DEPT RANK:

8

PROJECT TYPE: New

VISION PLAN: Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

ROLLOVER FROM FY23-24:The City's Network operates off of a single internet provider (T3) should that internet connection go down, the city would be without network connectivity to the outside until the connection is restored. In order to establish and maintain a "high availability" environment a secondary internet provider/carrier is required to enable failover should an incident with the primary carrier occur. This project would establish a secondary internet provider with a different entry path into the City and supporting hardware and software to manage a switch between internet providers. During Hurricane Ian several internet providers were significantly impacted - fortunately the City's primary carrier (T3) was not. During a future event, it is quite possible T3 could experience an outage. (on-going operational costs not included).

VISION PLAN: Infrastructure

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior year maintenance costs must be included.

ROLLOVER FROM FY23-24: Network Access Control (NAC) is cyber security protection approach where which devices are only granted access to a network once they meet a set of criteria (policies) such as requisite software and antivirus levels and/or are otherwise recognized as authorized by the network (MAC address). This approach significantly reduces the risk of a cyber-attack from an unknown device taking over the host network.

DEPARTMENT: 80 Technology Services

FUND: 520 Technology Services Fund

PROJECT NUMBER: 25T11

CIP SCORE: 36

DEPT RANK: 10

PROJECT TYPE:

VISION PLAN: Governance

DESCRIPTION/JUSTIFICATION: For replacement vehicles, current vehicle make/model/ year, mileage/hours and prior

Allows ITS to more efficiently manage and protect the City's IT infrastructure by automating many IT tasks (such as access granting and access termination) via a single management system console. Also capable of providing Task automation/workflow to ensure consistency in operations. Provides user self-assistance portal to download authorized applications without the need for IT to perform directly.

ONE CENT SALES TAX CAPITAL PROJECTS

On November 6, 2018, Collier County voters approved a 1.0% local governmental infrastructure surtax on transactions in Collier County. This surtax began January 1, 2019 and expired on December 31, 2023. The referendum read as follows:

To enhance safety, mobility, and hurricane preparedness in Collier County and its cities by constructing, repairing, and maintaining roads, bridges, signals, sidewalks, parks, evacuation shelters, governmental, and emergency services facilities; acquire land and support construction for workforce housing and career and technical training, veterans' nursing home and expand mental health facilities; shall the County levy a one-cent sales surtax beginning January 1, 2019, and automatically ending December 31, 2025, with oversight by citizen committee.

The proceeds were shared between Collier County, Marco Island, Everglades City and Naples according to a statutory formula. To date the City of Naples has received a total of \$28.71 million in One-Cent sales tax revenue.

Based on referendum language, City staff identified projects as high priority in order to maintain the current level of service and meet the City's overall goal and vision. The projects have been revised over time and are summarized on the subsequent pages.

City of Naples, FL
ONE-CENT SALES TAX CAPITAL PROJECTS

PROJECT NAME:	<u>Beach Outfall Removal & Water Quality Project</u>		
DEPARTMENT:	60 Storm Water/Drainage	PRIMARY PURPOSE:	Safety
DEPT RANK:	1	CIP SCORE:	78
DESCRIPTION/JUSTIFICATION:			
The City owns and maintains old outfall pipes along Naples Beaches that discharge stormwater directly onto the shoreline of the Gulf of Mexico within the recreational swim area. FDEP requires that this system be improved in a way that removes pipes and the discharge of stormwater from the beach and shoreline. This CIP transitions the existing southern five stormwater shoreline discharges into a single, offshore discharge that integrates a pump station and numerous water quality improvement components. The design reduces flooding, improves water quality, sea turtle habitat, lateral beach access, and reduces beach erosion. It also protects the public from contact with the pipes and discharge water on at the shoreline.
